

## BRASS MARINE & INDUSTRIAL FITTINGS

### No. 565 - Shut Off - Straight Stream - FOG Nozzle

This satin brass 1-1/2" size is highly recommended for use with interior fire protection equipment. Fire protection engineers and insurance companies recommend the use of the 1 1/2" 565 fog nozzle because of its effectiveness on fire, keeps water damage to a minimum. **If the required nozzle shall be Underwriters' Listed approved and Factory Mutual Listed: for "A" & "B" Fires, please specify when ordering. Nozzles are also available in red thermoplastic (PN: 565P).**

Part Number	Size	90° Spray GPM @ 100 PSI	Available Thread Types
565-075	3/4"		GHT, NST
565-100	1"	36	NPSH, NST
565-150	1-1/2"	85	NPSH, NST
565-200	2"	108	NPSH
565-250	2-1/2"	205	NPSH, NST

### No. 572NB - Plain Hose Nozzle

For use on fire hose racks and reels and for other industrial applications where shut off valves are not required at the nozzle. Please specify thread type when ordering.

**1-1/2" NPSH & NST nozzles are also available in red thermoplastic (PN: 572NBP)**

Part Number	Size	Available Thread Types
572NB-075	3/4" x 6" x 1/4"	GHT, NPSH
572NB-100	1" x 8" x 5/16"	NPSH
572NB-125	1-1/4" x 10" x 3/8"	NPSH, NST
572NB-150	1-1/2" x 10" x 1/2"	NPSH, NST
572NB-200	2" x 12" x 9/16"	NPSH
572NB-250	2-1/2" x 12" x 1"	NPSH, NST
