

INTERNATIONAL BRASS MARINE FIRE HOSE COUPLINGS

PART#: 7233B - John Morris/British instantaneous Firehose Coupling

Conform to BS 336 British Standard design. The distinctive arms on the female coupling are spring-loaded and lock onto the male fitting when pushed together. Pulling the arms away from the coupling releases the fittings.

Part Number	Hose ID Size	Female Size	Male Size	IMPA Code
7233B-150	1-1/2"	1-1/2"	1-1/2"	330859
7233B-200	2"	2-1/2"	2-1/2"	330860
7233B-250	2-1/2"	2-1/2"	2-1/2"	330861

PART #: 7233N - Nakajima Firehose Coupling

Conform to JIS 7335 standard. The two halves are identical and a quarter turn locks the couplings together.

Part Number	Hose ID Size	Coupling Size	IMPA Code
7233N-150	1-1/2"	1-1/2"	330851
7233N-200	2"	2"	330852
7233N-250	2-1/2"	2-1/2"	330853
7233N-2515	1-1/2"	2-1/2"	330891

PART #: 7233S - Storz Firehose Coupling

Conform to the German standard DIN 14302 and DIN 14303. A quarter turn mates the two identical halves.

Part Number	Hose ID Size	Coupling Size	IMPA Code
7233S-150	1-1/2"	1-1/2"	--
7233S-200	2"	2"	330875
7233S-250	2-1/2"	2-1/2"	--

PART #: 7233M - Machino Firehose Coupling

Conform to JIS B9911. These are push-to-connect coupling with a distinctive outer rubber bumper on the female half. Pushing the flange on the male half releases the fittings.

Part Number	Hose ID Size	Female Size	Male Size	IMPA Code
7233M-150	1-1/2"	1-1/2"	1-1/2"	330855
7233M-200	2"	2"	2"	330856
7233M-250	2-1/2"	2-1/2"	2-1/2"	330857

PART #: 7233I - Italian Firehose Coupling

Part Number	Hose ID Size	Coupling Size
7233I-45	1-3/4"	1-3/4"
7233I-70	2-3/4"	2-3/4"
