

BRASS MARINE & INDUSTRIAL FITTINGS

No. 336-S - International Ship Connection

336-S Ship connection is for use with 336-L Shore Connection. The International Ship Connection is a standard 2-1/2" 150 lb. ASA flange drilling. The flange has a 2-1/2" female fire hose thread (NST/NH) to match fire hose threads on the ship. The flange has 4 slots with Bolt Circle Diameter of 5-1/2", the Outside Diameter is 7". Flange is slotted rather than drilled so that it can be used with non standard flanges. Connection is supplied with bolts, nuts, washers, and gasket.

No. 336-BOX - International Ship/Shore Connection Storage Box. This PVC cabinet is rugged, watertight, corrosion resistant with a twist handle. The cabinet can store up to 2 pieces.

No. 336-L - International Shore Connection

336-L Shore connection is for use with 336-S Ship Connection. The International Shore Connection is a standard 2-1/2" 150 lb. ASA flange drilling. The flange has a 2-1/2" female fire hose thread (NST/NH) to match fire hose threads on the ship. The flange has 4 holes with Bolt Circle Diameter of 5-1/2", the Outside Diameter is 7". The International Shore Connection is supplied with bolts, nuts, washers, and gasket.
