

HYDRAFLEX SEM-JET WATER GUN/TOBEY

Hydraflex water guns have been specifically designed for Hold carriers and cargo vessels of all sizes. The Hydraflex uses a combination of water and compressed air resulting in a powerful, tightly compressed jet of water able to reach up to 100 feet (30 meters) with adjustment to the control valve. One man operation ensures hold cleaning time is reduced to an absolute minimum without the need of additional equipment such as scaffolding, pumps and scrapers.

Features and Benefits:
